**THE LARGEST ROSE GROWERS
IN THE WORLD**

WHY OUR ROSE TRADE IS BY FAR THE LARGEST IN THE WORLD Because Our Roses Grow and Bloom

Under our method of propagation—which is a natural one—growing during the growing season and resting during the non-growing season, we produce a Rose that can have no superior. This is evidenced by our largely increasing trade. Once a customer always one. Sometimes a customer of ours will be led off by cheaper prices, but they invariably after the trial come back to us, our prices being as low as first-class Roses true to name and carefully packed can be produced and sold for. Cheaper prices than we quote always mean cheaper Roses. We invite correspondence on large orders. Mail us your list of needs, giving the varieties and quantities of each you will require and we will give you the very best prices at which first-class stock can be sold.

OUR TERMS OF SALE

CONDITIONS

The plants named are offered at the rates quoted, provided that not less than ten of each variety are taken at the hundred rate, not less than 250 at the thousand rate, nor less than three at the dozen rate.

TERMS

Three per cent. discount for cash with order; two per cent. discount on all invoices paid within ten days. All bills subject to draft in thirty to sixty days, unless otherwise agreed upon.

SUBSTITUTION

Under no circumstances will we substitute unless privileged to do so by purchaser. Customers will save time to give second choice of any variety should we be out of their first choice.

PACKING

To far off points many customers have the soil removed from the roots of Roses and then wrapped in damp moss, thereby saving express charges. Customers who desire their Roses packed in this way will so state when they order. We will not be responsible for loss or damage in transit when so packed.

We Make No Charge for Packing.

UNKNOWN CORRESPONDENTS

Orders from unknown correspondents must be accompanied by the cash, or satisfactory bank or business reference. Remember, it takes time to write your reference and get their reply. If ordered sent C. O. D., one-third the value of the stock called for must be remitted with the order. We make no deviation from this rule, as at the very low rate offered we cannot afford to run any risk. This rule will be strictly adhered to.

COMPLAINTS

No complaints will be entertained unless made immediately on receipt of goods.

REMITTANCE

Should be made either in the form of Money Order, Bank Draft, Express Order or Registered Letter. Remittances in any other way are entirely at the sender's risk. Personal checks not accepted from unknown correspondents.

SHIPPING FACILITIES

Having the rival express companies—Adams, American, National, Pacific, United States and Wells Fargo—these companies charge one through tariff rate over their own lines and have working arrangements with the Southern, Great Northern and Northern Pacific Express Companies, thus insuring you the lowest possible one-through rate without the usual custom of charging two or more local rates where goods are handled by two or more express companies; thus we can reach almost any point in the United States by express at one rate, insuring our customers the lowest express charges.

PLANTS BY EXPRESS

All goods are sent by express unless otherwise ordered.

PLANTS BY FREIGHT

We will not ship perishable goods by freight except under the following condition: You to give us in writing before goods are shipped, release from all loss or damage in transit.

NEW LOW EXPRESS RATE

The following notice goes on each shipment of plants where the expressage is to be collected from purchaser:

EXPRESS AGENTS—LIVE PLANTS

If not delivered upon arrival, notify both Consignee and Shipper. This package contains Plants, Bulbs and Seeds, and is carried under General Special Rate Scale N of Classification. The charges on this shipment to destination are.....

The amount of the expressage you will have to pay will be marked in the blank space on this notice. Whether it is or not and you think you have been overcharged, take a receipt for the payment you make and return to us, and if you have been overcharged, we will have the amount refunded to you at once, and we will collect from the agent at your end. All the trouble you will be to us to get a receipt and send it to us. The saving under Special Rate Scale N is from 20 to 33 per cent.

PLANTS PREPAID BY EXPRESS

To patrons in California and other far-off points we make a specialty of packing plants so as to make the expressage light, the expressage when prepaid being eight cents per pound. So, if you wish to avoid expressage, when the rate is high, add one-fifth additional to your remittance, and we will prepay same through to destination.

IN FILLING YOUR ORDERS

We shall do our best to make every shipment satisfactory and profitable to you. In every case where we fail to do this from any cause, do not hesitate to report to us at once. We believe in liberal count, careful labeling and light, secure packing.

Herbaceous Peonies Hardy Everywhere

We offer as choice a list of Peonies as you will find in this country. To the collector the varieties named will be attractive. To those who wish to increase their stock of desirable sorts this list will appeal, and to the nurseryman and dealers who buy to sell, there will be found a choice lot of varieties at moderate cost.

We started some years ago to grow Peonies and we believe that no firm in this country has such a large planting of valuable sorts. Our endeavor is always to lead and not follow in any branch of the floral business we undertake. We will make Good & Reese Peonies as much of a household word as Good & Reese Roses are. So do not forget us when in need of Peonies. We can supply them (referring to the price) from the aristocrat to the plebeian. We guarantee our Peonies true to name.

Festiva Maxima

The plants we offer are from division, two to five eyes, bloomed and tested. You will be pleased with the roots, our soil producing the best we have found anywhere. We are situated in the great Miami Valley of Ohio—no more fertile land than this in America. Our roots are free from disease. Look over our list, we have about all that you need or that is good. Our planting consists of one hundred and twenty-five thousand plants of the varieties here listed. **TRY US FOR PEONIES.**

Peonies should be planted in the fall. We can supply the entire list during September, October and November, 1908.

ORDER PEONIES NOW FOR FALL PLANTING AND SALES.

ACHILLE (Calot, 1855)—Fine, large, five-inch bloom, very floriferous, opens light flesh colored pink, finishing bluish-white, with an occasional creamy spot; somewhat resembling an immense Carnation. An excellent variety for all purposes. 15 cents each, \$1.00 per dozen, \$7.00 per hundred, \$65.00 per thousand.

AGIDA—Very dark rich crimson, early and fragrant. 35 cents each, \$3.50 per dozen, \$25.00 per hundred.

AGNES MARY KELWAY (Kelway)—Guard petals light rose, with yellow petaloids bearing a lovely rose tuft, a tri-colored bloom that has many admirers. 50 cents each, \$5.00 per dozen.

ALBERT CROUSSE (Crousse, 1893)—Immense, very full, convex bloom, free salmon-pink shaded with clear pink. A remarkable and striking variety; entirely distinct in color and make-up from any Peony in our collection. A wonder; magnificent. \$1.00 each, \$10.00 per dozen, \$75.00 per hundred.

ANDRES LAURIES (Crousse, 1881)—Rosy-red; very free late bloomer; an old well known variety, considered very useful; probably the most widely planted of any Peony. 15 cents each, \$1.00 per dozen, \$7.00 per hundred, \$65.00 per thousand.

ANEMONEFLORA—Rich, deep, clear pink, outer petals lighter. 15 cents each, \$1.00 per dozen, \$6.50 per hundred.

ASA GRAY (Crousse, 1886)—Large, full imbricated rose-formed bloom; guard petals salmon-flesh; center very full and perfectly formed; color, flesh-pink, dotted and flaked with carmine and lilac; strikingly imposing and beautiful. 75 cents each, \$6.50 per dozen, \$50.00 per hundred.

BARONNE JAMES DE ROTHSCHILD (Guerin, 1850)—Guards a lively bright, clear rose, with deep rose and salmon center; a very free bloomer. 15 cents each, \$1.50 per dozen, \$10.00 per hundred.

BARONESS SCHROEDER (Kelway, 1889)—Taken all around this is one of the finest in existence. You may pick three flowers and one of them will have a delicate and lingering reflex of gold in the center; the next may have a creamy center and the next a pinkish glow, the whole flower a huge pyramid of baby pink, fading to purest white. It is well formed and ethereally beautiful; a great Peony, easily scores the five points of excellence. \$5.00 each.

BERLOIZ (Crousse, 1886)—Enormous, full globular, imbricated bloom; bright currant-red; center tinted rose and shaded with amaranth; very late; elegant sort. 35 cents each, \$3.00 per dozen, \$20.00 per hundred.

BOADICIA—Large guard petals heavily dotted rosy-white; high built, full center; flushed creamy-white; center petals edged carmine; a chaste variety. 30 cents each, \$2.50 per dozen, \$20.00 per hundred.

BRENNUS—Brilliant dark crimson, presenting an almost black appearance at a distance. A grand variety; late. 40 cents each, \$4.00 per dozen.

CANARI (Guerin, 1861)—Outer petals white with deep primrose center, the earliest of all the light colored Peonies to bloom. 40 cents each, \$3.50 per dozen, \$25.00 per hundred.

CHARLEMAGNE (Crousse, 1880)—Creamy-white; center light lilac-flesh with chamois; immense bloom; late and exceptionally fine. 40 cents each, \$4.00 per dozen; \$25.00 per hundred.

CLAIRE DUBOIS (Crousse, 1886)—Very large, globular flower; center full convex and tufted; petals incurved and lobed; color, finest clear original pink, with glossy reflex; extra desirable. \$1.25 each, \$12.00 per dozen.

COURONNE D'OR (Calot, 1873)—A crown of gold indeed; very large, full imbricated, ball-shaped flower of superb form; color, white, suffused with yellow; center petals bordered with carmine-golden stamens showing through and lighting up the whole flower; solidly and perfectly built from edge to center; fragrant and good bloomer. 75 cents each, \$8.00 per dozen, \$60.00 per hundred.

DELACHEI (Delache, 1856)—Late midseason, deep purple, with crimson reflex; free bloomer; one of the most remarkable of the dark Peonies. Claimed by Lemoine to be the same as Dr. Boissduval. 25 cents each, \$2.50 per dozen, \$20.00 per hundred.

DORCHESTER (Richardson, 1870)—Delicate salmon-flesh, beautifully shaped, full double flowers on erect stiff stems, a flower that would attract attention at any time or place. As it comes into bloom very late, when most Peonies are gone, it is doubly prized. 50 cents each, \$5.00 per dozen, \$40.00 per hundred.

DUC DE WELLINGTON (Calot, 1859)—Guard petals broad and pure white; center petals sulphur-white, narrow and very full. The large superbly formed flowers come on long stems, making it an ideal cut flower sort. Deliciously fragrant and free; late midseason. 40 cents each, \$4.00 per dozen, \$30.00 per hundred.

DUCHESS DE NEMOURS (Calot, 1856)—Superb cup-shaped; sulphur-white flower, with greenish-reflex fading to pure snow-white. In all Peonies there is nothing so exquisitely chaste and beautiful as this variety in the half open bud state, while the full blown flower is unexcelled. Do not omit it. Certainly grand. Late midseason. 25 cents each, \$2.00 per dozen, \$15.00 per hundred, \$125.00 per thousand.

EDULIS SUPERBA (Lemon, 1824)—Beautiful, brilliant pink, with silvery reflex; large, well formed, fragrant, full flowers on strong stems and good in every way, a much worthier sort than its price would indicate. Blooms early with Festiva Maxima. 15 cents each, \$1.00 per dozen, \$7.00 per hundred, \$65.00 per thousand.

EUGENE VERDIER (Calot, 1864)—This is one of the most exquisitely chaste and refined Peonies of the whole family. It combines every desirable feature. Immense size; globular shaped and literally packed with petals; color, blush, delicately shading to pink towards the center; profuse bloomer, deliciously fragrant; very slow in opening, holding a long time either on or off the plant. As a cut flower and for decorative purposes this Peony is unexcelled by any Chrysanthemum ever grown. We place it first and foremost and challenge comparison. 75 cents each, \$8.00 per dozen, \$60.00 per hundred.

EDOUARD ANDRE (Mechin, 1874)—Large globular bloom; deep crimson-red shaded black with metallic luster on the reflex of the petals. A magnificent, striking color. 50 cents each, \$5.00 per dozen.

EXCELSIOR (Terry)—Brilliant crimson, shading to lighter at tips of petals; very large, full and finely fringed; an American production of great merit. 25 cents each, \$2.50 per dozen, \$20.00 per hundred.

FELIX CROUSSE (Crousse, 1881)—All Peony enthusiasts are familiar with the fact that it is difficult to get a red Peony that is a self color, that is, a full, rich, even shade of red without being suffused with a violet shade. Felix Crousse fills the bill; a rich, even, brilliant ruby-red; exceptionally fiery bright and effective. Very large, full shaped bloom. We place this in the front rank of all red Peonies. Nothing like it in color. We have the largest stock of this variety in the world. 50 cents each, \$5.00 per dozen, \$45.00 per hundred, \$400.00 per thousand.

FESTIVA (Donkelaer, 1838)—Late midseason; fine; very full shell formed bloom; color, fine ivory-white with a few carmine spots on center petals; very fragrant; might be called a dwarf Festiva Maxima; known as Drop White around Chicago, where it is a favorite cut flower variety, being a good keeper. 35 cents each, \$3.50 per dozen, \$25.00 per hundred.

FESTIVA MAXIMA (Mieliez, 1851)—This is not only the finest white in existence, but in most quarters is regarded as the queen of all the Peonies. Mr. Harrison says: "This flower has reached the ultimate beyond which we cannot go." It combines enormous size with wondrous beauty, often seven to eight inches in diameter. Color, snow-white, flecked with an occasional clear purple spot on edge of center petals. In addition it is very fragrant; a glorious flower impossible to describe; magnificent. 25 cents each, \$2.00 per dozen, \$15.00 per hundred, \$140.00 per thousand.

FLORAL TREASURE (Rosenfield, 1900)—Very large and full; color, clear pink, shading lighter at the center; a splendid hemisphere of fragrant loveliness; long stems to uphold the big blooms, sometimes almost seven inches across; a unique and charming combination of colors; a sure and very free bloomer. 40 cents each, \$3.50 per dozen, \$25.00 per hundred.

FRANCOIS ORTEGAL (Parmenter, 1850)—Large purplish-crimson bloom, with brilliant golden-yellow anthers; very striking. 25 cents each, \$2.50 per dozen.

GIGANTEA (Van Leeuwen, 1892)—Variety found without a name in Mr. Van Leeuwen's collection. This is one of the rarest and most sought after in cultivation. Ward calls it the finest of all Peonies for cut flower purposes. It is of the earliest to bloom, produces an enormous flower six to seven inches in diameter, on long stems; deliciously fragrant; fully as effective for decorative purposes as the finest Chrysanthemum. Gigantea is a ravishingly beautiful wild flower. \$1.00 each, \$10.00 per dozen, \$75.00 per hundred.

GOLDEN HARVEST (Rosenfield, 1900)—Very striking variety producing large, tri-colored blooms, the guard petals being blush-pink, overlaid with a sheen of silver and deepening to canary-yellow; a few of the center petals tipped and striped with light crimson. It combines cream, gold, white, pink, salmon, peach and apricot. The total color-effect of the flower creamy-pink; strong delicate fragrance. "It breaks out into a wild rollicking prodigality of beauty with its large flowers to almost smother the plant, so great is their profusion. We all take off our hats as they pass by and cheer for beauty."—Harrison. 50 cents each, \$4.00 per dozen, \$35.00 per hundred.

Felix Crousse

GRANDIFLORA RUBRA—Enormous globes of deep, rich, velvety crimson. This variety took first prize at Chicago Peony show in 1905, and at the Boston show, 1906, over all comers in the red class. A showy brilliant Peony. 50 cents each, \$5.00 per dozen, \$40.00 per hundred.

HUMEI ALBA (Lemon, 1830)—Pure white; yellow center; rosy-flesh with silvery sheen on outer petals; center shading to silvery Daybreak-pink; very chaste formed bloom; nothing finer in color; delicious fragrance; late. \$1.00 each.

HUMEI CARNEA (Guerin, 1856)—Very large, compact and striking cherry-pink flower; among the very best; highly cinnamon scented; graceful in habit and grown very largely for cut flowers and valuable for landscape work. 15 cents each, \$1.00 per dozen, \$7.00 per hundred, \$65.00 per thousand.

Largely grown for cut flowers. Exceedingly fragrant, in fact the most fragrant of all Peonies; rare and fine. 25 cents each; \$2.50 per dozen, \$15.00 per hundred.

LA TULIPE (Calot, 1872)—Synonym Multicolor. Enormous globular, fragrant flowers; delicate rose, shading to ivory-white with center petals tipped carmine. Again we quote Harrison: "There is no Peony so attractive in bud as this; first a ball interlaced with green, red and light; as it grows, these interlacings become more pronounced. There is no bloom whose unfoldings you watch with greater interest. It finally opens a solid ball of softest blush with streaks of carmine. There it sits in all its beauty, a glorious flower in a chalice of veined marble emitting a delightful perfume. This Peony belongs distinctly in a class by itself." 60 cents each, \$6.00 per dozen, \$45.00 per hundred.

L'ECLITANTE (Calot, 1860)—Flowers large and full; deep carmine, tinged with velvety crimson; very beautiful. 25 cents each, \$2.50 per dozen, \$20.00 per hundred.

PRESIDENT ROOSEVELT (Holland, 1903)—This grand new Peony originated in Holland and was named in honor of the President as a compliment to this country—as an evidence of the friendly relations existing between the two countries, Holland and America. The color is one of the most distinct of the Chinensis type, a brilliant scarlet, bright and rich, a color almost unknown in the Peony. A very unique and attractive variety of high merit. Quantity limited. \$1.00 each, \$10.00 per dozen.

This is a remarkable species developed from P. Mouton, a native of China and Japan. In habit of growth it is not unlike a deciduous shrub; the growths are short and stocky, the plant eventually attaining a height of four or more feet and of large circumference; the foliage is quite handsome and the immense flowers which usually appear some two weeks ahead of the herbaceous class are most remarkable for their immense size and gorgeous colorings. Splendid for grouping or for specimen plants on lawns. While a hardy plant, it will be found desirable to give it some protection in very cold latitudes. All shoots springing from the base should be rubbed off; all colors. 60 cents each, \$6.00 per dozen.

G. & R. SPECIAL PHLOX OFFER

Among the hardy perennial plants, no class is of more importance or is more in public favor today than the Hardy Phlox, embracing as they do a wider range of attractive colors than can be found in any other hardy plant, while their gorgeous masses of color are unrivaled by any other summer flower.

We have eliminated from our collection all inferior sorts and varieties of dull color, and are offering only such as are distinct and effective. Many of the sorts which heretofore have been scarce and high priced are now offered at popular prices.

All of the plants which we offer are "strong, one-year field-grown," and delivery of same can be made at any time after October 1st. We have an immense stock; over 250,000 plants.

GOOD & REESE ROSES

AND THE OTHERS

YES, FORCING ROSES ARE RUNNING OUT and no wonder. From the time the cutting is taken until the plants are dug from the forcing benches and thrown out, the method pursued is absolutely wrong. There is not one iota that can be said in favor of the method—they are the others. GET GOOD & REESE SUMMER PROPAGATED WINTER RESTED OWN ROOT ROSES. Get them in March or April and pot into three-inch pots; they will supply their own legs to stand on without going to the grafting factory. You are in a rut, better get out. This means you. One grower from Chicago paid us a visit for Roses. He said something was the matter, the forcing Roses were running out. Just think of it, have to graft Brides and Maids. Ain't it preposterous on the face of it! Our advice: Try Good & Reese summer propagated own root Roses, and your troubles about weakness will be a thing of the past.

ETOILE DE FRANCE—The gold medal Rose of France, and claimed by the raiser, J. Pernet Ducher, of Lyons, France, to be the finest Rose he has ever sent out. We believe with him that it has no superior. The flowers are very large and borne on good, long, stiff stems; color a lovely shade of clear, red-crimson velvet; very fragrant and keeps well. In England, where it has been tried extensively during the past season, it has caused quite a sensation. Our opinion is that it will become as much of a favorite as La France. Keep your eye on this variety, as it is a stayer and altogether a grand variety. It is a good grower, a free bloomer, fine, rich color, deliciously fragrant. What more can be said of a Rose? 50 cents per dozen, \$3.50 per hundred.

FLORENCE PEMBERTON—One of the grandest of all new Roses for outdoor culture. It is a splendid grower, the bloom is perfection itself in way of shape and size, the color a lively pink, edged whiter. GENERAL McARTHUR—A new Rose that is already a fixture in many gardens. Color brilliant scarlet, a very bright-colored Rose of good size and double; very free blooming and fragrant. GRUSS AN SANGERSHAUSEN—Flowers large, full and elegantly formed; color reddish-scarlet, center deeper; buds long and pointed; very free and continuous; foliage and habit excellent. This looks like the red Rose for the million. 75 cents per dozen, \$5.00 per hundred.

We bought the entire stock of this Rose from the introducers, paying them \$1,000 for two plants, this being by far the highest recorded price ever paid for any Rose. The color is a delicate yellow, suffused with pink, each petal edged deeper, very chaste and beautiful. The color, with its immense size and exquisite form, makes it without question the greatest Tea Rose ever introduced and we are proud to have brought it out. Be sure and try it. LA DETROIT—The new Detroit Rose, which has been so largely advertised and exhibited. Shell-pink, shading to soft rose, reverse of petals cream-colored, fragrance like that of old Bon Silene. In form it is large, cup-shape; petals shell-like; rich, glossy foliage; a rampant, vigorous grower, making fine plants, and is unexcelled for cutting. 50 cents per dozen, \$3.00 per hundred.

LADY BATTERSEA (The Red Kaiserin)—In the English gardens this Rose is very popular, its novelty and charm lying in its unusual coloring and its long and graceful buds. Called by many the Red Kaiserin. The buds are full and pointed and of a beautiful cherry-crimson, permeated with an orange shade. We recommend this as one of the easiest and best. 50 cents per dozen, \$3.00 per hundred.

There were hundreds of competitors for these great honors, and it at once stamps this Rose as a wonder, for the judges did not hesitate one moment in awarding it first prize and a gold medal. In color it is a deep, rich, velvety crimson, both buds and flowers are large and handsome; extra fine. 50 cents per dozen, \$3.50 per hundred.

STRIPED REINE MARIE HENRIETTE—Everybody is familiar with that best of all climbing red Roses, Reine Marie Henriette. It is planted more largely in Philadelphia and south of that latitude than any other climbing Rose. This striped or variegated form is identical in every way except that the flowers are a bright red, distinctly striped with light pink. It will be planted as widely as any climbing Rose when Rose lovers know its beauty. 50 cents per dozen, \$3.00 per hundred.

SUNRISE (Tea.) (Forcing.)—In close bud form it shows the high, brilliant colors seen only in the Austrian Copper, scarlet and yellow. The Improved Tarrytown Fern.

In this we have unquestionably the most valuable Nephrolepis of the Ostrich Plume type yet introduced; not only is it of dwarfier and more compact habit than the N. Elegantisima, but the pinnae, being more deeply divided, give the plant a much more graceful appearance, while another important point in its favor is the fact that not a single frond has ever reverted to the common Boston Fern. When the plants are but a few months old they are literally covered with their beautiful blossoms. It does equally well either for house or outdoor culture. Ponderosa Lemon

The Wonderful Lemon, Ponderosa

A Fine Pot Plant for Florists' Sales.

Nothing that has ever been brought to our notice in the plant line has caused half the commotion that this wonderful Lemon has. It is a true ever-bearing variety. On a plant six feet high no less than eighty-nine of the ponderous Lemons were growing at one time. It was a beautiful sight to see. The tree was blooming, and at the same time had fruit in all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. Fruit has been taken from this tree weighing over four pounds. The Lemons have very thin rind for such large fruit. It is the juiciest of all Lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. It is not uncommon to make twelve lemon pies from one Lemon. We have the entire stock of this ponderous Lemon, and guarantee the trees to produce the same large fruit. No budding or grafting necessary. Ponderosa Lemon is sure to become popular when it is known. It fruits when quite small, and makes a lovely house plant. Everybody can grow his own lemons; it will fruit freely each year.

From the Houston Post, December 9, 1905.

PONDEROSA LEMON

Harry Adams, landscape gardener for the Sunset at San Antonio, has presented Col. T. J. Anderson a monster Ponderosa Lemon from the Sunset tropical botanical gardens at the depot in that city. There were thirty-eight lemons on this tree, and the one sent is one of the largest, weighing about three pounds. It is estimated that this single lemon will make two gallons of good lemonade or two barrels of the circus variety, or material for two dozen lemon pies, or sour enough to impart flavor to one hundred and fifty sour toddies, or lemon peel sufficient to decorate two hundred cocktails. Colonel Anderson sent the monster Lemon to the office of Traffic Manager C. K. Dunlap.

It is of the easiest culture, blooming the first year from seed, and succeeding in any open, sunny position. THE KING OF ALL SHRUBS

New *Hydrangea Arborescens Grandiflora Alba*

THE MOST VALUABLE HARDY SHRUB EVER INTRODUCED

Well Named "Hills of Snow"

This magnificent hardy American shrub is the very finest addition to this class of plants found in many a year. The blooms are of the very largest size, of pure snow-white color, and the foliage is finely finished, lacking entirely the coarseness found in *H. Paniculata Grandiflora*. One of its most valuable characteristics is its coming into bloom just after the passing of all the early spring shrubs, while its long season of bloom, from early June through August, renders it doubly valuable, not only to the florist, but to every owner of a garden; perfectly hardy, standing twenty degrees below zero. The form of the panicle is much like that of *Hyd. Hortensia*; the habit of the plant is excellent; it is bound to become the most widely grown and the most useful of all the *Hydrangeas*, and the most valuable shrub found in the

American garden, while it is more than probable that the florist will find it a most important addition to his class of plants, both indoors and out. Young stock, two and a half-inch pots, 50 cents per dozen, \$4.00 per hundred, \$35.00 per thousand. Field-grown, eight to twelve inches, \$1.25 per dozen, \$10.00 per hundred, \$90.00 per thousand. Twelve to fifteen inches, \$2.00 per dozen, \$15.00 per hundred, \$140.00 per thousand. Eighteen to twenty-four inches, \$2.50 per dozen, \$20.00 per hundred.

Paniculata Grandiflora—Strong young plants, 50 cents per dozen; \$4.00 per hundred.

Otaksa—Two and a half-inch pot plants, 50 cents per dozen; \$3.00 per hundred.

Thos. Hogg—Pure white. Two and a quarter-inch pots, 50 cents per dozen; \$3.00 per hundred.
